

TO PROVE FOREIGN
RELATIONS A MYTHM. Labori Today Demands
Fair PlayASKS SUMMONS OF FOREIGNERS
FOR DEFENSE.Must Show Directly That Dreyfus Was
Not Intimate With Foreign Powers

Prove That Documents Have Secretly Been Communicated to the President of the Court—To Investigate the Character of Cernuschi London Correspondent of the Paris Matin Relates Esterhazy's Confession.

Rennes, Sept. 5.—[Special].—M. Labori, today demanded that the court-martial summon Colonels Schneider, Schwarzkoppen, Panizzardi and other foreigners to testify for the defense and prove directly that Dreyfus never had relations with foreign powers.

This request is in line with the statement made by him yesterday after the generals had introduced Cernuschi, the foreign refugee.

The fact was also brought out at today's session that the documents had been communicated to the president of the court without the knowledge of the defense. Labori made a strong protest, asserting that the great error of the first court-martial was being repeated.

The first part of the session was secret.

Cernuschi was not examined, as Labori had demanded twenty-four hours, as allowed by law, for an investigation of the witness' character.

The secret session was then devoted to the "shy dossier," entered by Captain Guignot yesterday.

Labori Renews Request.

When the doors were thrown open, Labori made a request for the foreign witnesses, adding: "We also ask that the government secure through diplomatic channels the documents bearing on the bordereau."

Major Carriere for the prosecution, protested against the moral and material difficulties of such action, saying that it would not assist the defense anyhow. President Jouaust reserved the decision.

The first witness was Sergeant Bassett, the London correspondent of the Paris Matin, who testified that he went to London to interview Esterhazy, who positively stated that he wrote the bordereau as an incriminating document under orders of Col. Sandherr.

De Broglie, one of the judges, asked Bassett: "Did Esterhazy not also say that Dreyfus was a traitor?"

The witness said: "Yes."

Roget then caused a sensation by handing Jouaust unopened letters received by Roget from Esterhazy.

Labori demanded that they be read. Jouaust refused saying they were private letters.

Labori then called attention to the error of the first court-martial in accepting secret evidence.

Powerful Appeal for Dreyfus.

The next witness made a powerful appeal for Dreyfus; one that stirred the court. It was Senator and former Minister of Justice Trépoire. He spoke in a voice that could be heard two blocks away and emphasized his points with excessive gestures. The witness repeated his evidence before the court of cassation, relating chiefly to the assurances he had received from foreign sources of Dreyfus' innocence. He said that the Italian ambassador at Paris told him that Dreyfus never had relations with the Italian secret service bureau. Trépoire's eloquent speech wound up with a plea for the admission of foreign testimony.

After a secret conference the court unanimously refused and adjourned. The Dreyfusards are wild with indignation.

M. Dubut Placed Under Arrest.

Verdun, France, Sept. 5.—[Special].—M. Dubut, president of the Anti Semite league, was arrested here today.

Thousand Leagues in Brazil.

Rio Janeiro, Sept. 5.—Notice has been received from Berlin that the duke of Saxe has sold to the German government lands in Santa Catharina estimated at over 1,000 square leagues.

Washington, Sept. 5.—Nothing is known here of the reported sale of 1,000 square leagues in Brazil to the German government. Whether such a sale would be contrary to the Monroe doctrine would probably depend in large measure on the use which Germany would propose to make of the land. Should it be proposed to establish German sovereignty over it or to use any part of it for a military or naval station there is no doubt that the Monroe doctrine would apply.

What use the German government can have for such a tract of land in Brazil for purely commercial purposes is a puzzling question. It is not believed here that the Brazilian government would permit the sale of any land in that country for a use which would be contrary to the Monroe doctrine, as Brazil, more firmly than any other South American nation, supported the United States in upholding the doctrine.

BARN PARTIALLY DESTROYED

Fire Department Called to North Academy Street Last Night

Fire last night partially destroyed a barn in the rear of No. 105 South Academy street. The alarm was turned in at a few minutes past eleven o'clock, from box 15, at Academy and Wall streets, and when the department arrived, the flames were soaring high in the air and lighting the vicinity for many blocks. The fire was soon under control and another scare was over.

The barn was owned by Mrs. A. H. Stickney, who lives in Chicago, and the premises are occupied by J. P. Wilcox. It is not known how the blaze started but it is probable that it was fired from within, but whether intentionally or otherwise is a matter of conjecture. The structure was empty with the exception of a lawn mower, so that the loss is slight. It is not known whether there is any insurance, or not. The barn on the same site was burned about seven years ago, but the fire was accidental, being caused by children at play.

Early in the evening, about 9 o'clock an alarm from box No. 12, at Mineral Point avenue and Washington street, called the department to the old hospital building on Mineral Point avenue, where a lamp had been overturned. The flames were extinguished before the arrival of the firemen, with but nominal damage.

Immense Corn Crop Promised.

Chicago, Sept. 5.—All previous high records probably will be broken by the corn crop production of the United States of 1899. Only an accident can prevent it. A canvass of the eight states which raise the bulk of the corn of the United States warrants an estimate above that of 1896, which heretofore has been the record, and there is much in the advice received to justify a prediction that the crop will approximate 2,500,000,000 bushels.

AN OLD MAN FOUND
DEAD IN HIS HOME

PATRICK MULCHRONE'S DEATH LOOKS LIKE MURDER.

Miser Who Lived Alone on a Farm Near Viroqua—Bust of the Late President Albee, Unveiled at Oshkosh—Mystery of a Racine Man's Disappearance Explained.

Viroqua, Wis., Sept. 5.—What seems without doubt to be the murder of a hapless old man for his money came to light Sunday. Seven miles south of this city two young men found the remains of Patrick Mulchrone, the flesh on every exposed portion of the body eaten off by dogs, rats and chickens. One of his legs had been eaten off at the knee joint and carried away.

Mulchrone was a widower, 70 years old, who lived alone in a small hut on his farm some distance from neighbors. He had not been seen for more than a week.

The case was reported here last night and yesterday morning Sheriff Ericson, District Attorney Bennett, Dr. Surenson and Justice McMichael went to the scene. They were not long in arriving at the conclusion that Mulchrone had been murdered. As evidence of this belief they found the door of the hut broken open and the clothing on his bed covered with blood and evidences of a struggle. The remains were lying on the floor unrecognizable except for the clothing. A jury was summoned by Justice McMichael, but their findings have not been concluded.

Mulchrone was a miser who owned a good farm and is supposed to have had quite a large sum of money hidden about his premises. Two years ago he was robbed of quite a sum, but the offenders did him no violence. There is no basis yet on which to make arrests.

Unveiled Albee Bust.

Oshkosh, Wis., Sept. 5.—The memorial bust of George S. Albee, late president of the Oshkosh Normal school, was unveiled yesterday, and formally presented to the school. President Halsey called the assembly to order and then with drew in favor of Prof. Briggs, who presided. Upon the rostrum sat Miss Mary J. Kinsley, Miss Nancy Davis and Miss Emily Webster of this city, the three surviving members of the faculty who were present at the Oshkosh Normal on the morning that the school first opened, September 12, 1871. Miss Helen Furness, the sculptress, was also on the platform. The bust was on a pedestal draped with red material. Shrouded in the marble were draperies of white, which were withdrawn at the proper moment. The decorations were simple, there being no attempt to make the event a gala one.

Will Get \$25,000 a Year

Oshkosh, Wis., Sept. 5.—Ted Armstrong, whose real name appears to be Cecil Cavendish, will soon come into an income of \$25,000 a year from an estate in Southern England. Cavendish was born in Australia and afterwards lived in South Africa, coming to this country in 1893. His parents are dead and although he has a regular allowance from England, he adopted the profession of concert hall singer and traveled all over the country until he fell and broke his hip, making him a cripple.

A year ago he settled in Oshkosh and declares that although he intends to travel a good deal, he will make this his permanent home.

Messrs. Scovel and Brinkwater, solicitors, hailing from London, are in the city arranging the young heir's affairs.

Boy Tryst on Shell Lake

Madison, Wis., Sept. 5.—George W. Lewis, A. F. Menges and N. O. Starcks of Madison, have purchased 2,400 acres of land on Shell Lake in Washburn county for speculative purposes. The land has been stripped of its timber by the Shell Lake Lumber company from which the Madison men bought the property. Two new owners will erect summer cottages on the portion of the land running along the lake shore and will sell the remainder for agricultural purposes. They paid about \$5 an acre for the land.

Body Found in River.

Racine, Wis., Sept. 5.—The body of Andrew Johnson, aged 22, was found in the river yesterday. Members of the life-saving crew, Johnson had been sick with malarial fever and last Friday night left his home in an almost naked condition. He was traced to the river and the supposition is that he committed suicide while delirious or tumbled into the water while searching for the schooner Lydia, upon which he had made a few trips for his health.

There is serious business ahead for the business session, which will make an official declaration on the pension question. The conservative and radical elements are preparing to lock horns over the question.

If the radicals win it will be an open slap at President McKinley and his administration.

GOVERNMENT FEARS RIOTS.

Troops Are Ready to Occupy the Town of Rennes.

Rennes, Sept. 5.—As the end of the Dreyfus court-martial comes within sight the French government is beginning to display a fear that the verdict may give rise to troubles, and orders have been received by two regiments of infantry and one cavalry regiment, already within hall of Rennes, to hold themselves in readiness to march on the town at the first sign of disorder, to occupy all strategic points and to repress manifestations in their inception.

At Monday's session of the court-martial an Austrian political refugee, Eugene Cernuschi, came out with a flat-footed denunciation of the accused. His testimony, which was in the form of a letter to the president of the court-martial, Col. Jouaust, was most unequivocal. He claimed that on three distinct occasions, twice in France and once at Geneva, he was told by a high-placed foreign officer that Dreyfus had communicated treasonable documents to a foreign power. In the third instance Cernuschi said that the officer showed him documents emanating from Dreyfus and that this officer left France hurriedly two days prior to the arrest of Capt. Dreyfus.

The allusion was evidently to Col. Schwarzkoppen, the military attaché of the German embassy in Paris in 1894, whose movements were coincident with those described as the movements of the officer of Cernuschi's deposition.

This introduction of a foreigner as a witness for the prosecution gave Labori an opportunity to submit the most important request he has made throughout the trial, a request which, if granted by Col. Jouaust, though this is extremely doubtful, would certainly have momentous consequences.

Labori announced his intention, in view of the step taken by the prosecution in calling foreign evidence, to ask that inquiry should be made through the regular diplomatic channels as to whether the documents mentioned in the bordereau were actually communicated, and, if so, by whom. This involves an application to the German government, which the court-martial is scarcely likely to approve. In any case the application means the lengthening of the trial for several weeks.

Ex-Gov. Altgeld at New York.

New York, Sept. 5.—The Chicago platform democrats of New York celebrated Labor day with a rousing meeting at Cooper Union Monday night and ex-Gov. John P. Altgeld was the principal speaker. The ex-governor referred to William Jennings Bryan as the new Jefferson of the west and was cheered for this utterance to the echo. His speech covered all the issues of the day, but it was most warmly received for those parts which urged the reaffirmation of the Chicago platform of 1896.

Resolutions were passed indorsing the Chicago platform and denouncing President McKinley's policy in the Philippines. The tenor of the meeting was decidedly against expansion.

Confess Murder of Koeller.

Chicago, Sept. 5.—Richard Honeck and Herman Hundhausen confessed to Chief Kipley that they murdered Walter F. Koeller in his room at 80 1/2 Fulton street on Saturday night, because of hatred for him. Both boys asserted that their original plan was to murder also George Koeller, brother of the victim. Honeck admitted that he did the stabbing, and agreed with Hundhausen in saying that the latter had drawn his knife to assist, but weakened when the victim cried out for help. The police are of the belief that the crime was inspired chiefly by dime-novel reading.

The case of the state against Thor. Flynn, charged with assault and battery came up and was adjourned to Wednesday, Sept. 13th.

The garnishee case of Dudley against Eleflet was adjourned to Tuesday, September 19.

A quartette of choice Labor day drunks came up and went down: Edward Walrath was first. He was fined \$3 and costs amounting to \$4.10, or eight days. He took the change for future celebration. Dan Ryan was next. He acknowledged the corn (juice) and was fined \$2 and costs, in all \$3.10, or six days. He went over the trail. The third was just plain William Jones. His offense fine and alternative was the same as Ryan's and he joined him. Last but not least, was John Mulcairn. He stepped up to the footlights, confessed his weakness and awful fall by the wayside, was touched for \$3 and costs or \$4.10 in all, refused to settle and in eight days will be out of jail again.

Esterhazy Talks of the Trial.

London, Sept. 5.—Major Count Ferdinand Walsin Esterhazy, writing to the Evening News, describes the expert handwriting evidence in the court-martial of Capt. Alfred Dreyfus at Rennes as "an overwhelming mass of stupid nonsense." Continuing, he says: "France is being devastated by a civil war, all the more abominable because it is not being fought with arms. The Dreyfus verdict will not arm the strife. The acquittal of Dreyfus, for which the government is working secretly, will result in the complete disorganization of the French military system and the triumph of the socialists."

PREPARING FOR
TRANSVAAL WAR

The Crisis Believed To Be Acute

ENGLISH CABINET MEETING CALLED TO CONSIDER.

Three Brigades of Infantry With Scotch Fusilier Rifles Under Orders to Embark on Twenty-four Hours Notice—Seven Transports Being Fitted Up in Utmost Haste—Belief That Boers Will Speedily Declare War—Five Thousand Men Will Muster Under Native Banner.

London, Sept. 5.—[Special].—Preparations for war continue. The Transvaal crisis is believed to be acute. Three brigades of infantry with Scotch fusilier rifles are under orders to embark on twenty-four hours' notice.

Seven transports are being fitted up in utmost haste for the conveyance of the troops.

No official bulletins were issued today, but a cabinet meeting has been called to consider the situation.

London, Sept. 5.—The Johannesburg correspondent of the Standard says: "I learn from an official who has been earnestly striving for peace that the matter is now hopeless. The Boers will probably declare war at forty-eight hours' notice, and will try to raid Natal before the British troops arrive."

"I believe the Orange Free State will join the Transvaal, but that the Boers in Natal and Cape Colony will remain quiet at the outset, unless irritated by the dismissal of the Cape Colony cabinet."

"The Boers have the fullest confidence in their magazine rifle and their skill in marksmanship. State Attorney Smuts is the chief inciter of the war party. Thirty thousand men in the Transvaal and 20,000 in the Orange Free State will take the field."

The Times prints a letter from the bishop of Pretoria appealing for funds to relieve the terrible distress caused by the protracted tension and the fears of war.

A dispatch to the Daily Mail from Delagoa Bay says the refugees from Barberton declare that they were warned to leave, as the Boers intended to cordon the district.

There are numerous other dispatches giving rumors as to war plans and preparations, the probable attitude of the natives and possible developments. Amid the crowd of conflicting dispatches from South Africa regarding the Transvaal situation, it is still impossible to say exactly what has happened. It seems evident, however, that President Kruger has withdrawn the five-year franchise, which was dependent on Great Britain's acceptance of impossible conditions regarding suzerainty, and has made some sort of temporizing counter suggestions regarding a conference.

Refreshments were served and all report a splendid time. Fannie Drew and Pete Horan took in the fair at Monroe, Saturday. CHIEF BLACK HAWK IS DEAD

Old Winnebago Well Known to Janesville Pioneers. Passes Away.

Black Hawk, aged 90 years, the most noted of the chiefs of the Wisconsin Winnebago Indians, died in the town of Brockway, a few miles from Black River Falls. Black Hawk had been well known in the western part of Wisconsin for the last fifty years. He has paid many visits to Janesville and many of the old pioneers can recall them. A grave near this city was named in honor of this old aborigine, who was always a friend of the whites and on several occasions prevented the Winnebagoes from taking the warpath against the palefaces.

The aged warrior was the last of a famous line of fighters. He was a nephew of the original Black Hawk of the wars of 1832 and fought in the battle of Bad Ax. When the Indian forces were finally overthrown on the shores of the big Mississippi the young Sac warrior drifted northward and soon became a noted hunter in the land of the Winnebagoes. His prowess and imperious ways soon made him the absolute master of a large band of the tribe, over which he ruled for many years with an iron hand. He was present at the great council of the tribes which assembled on the return of the original Black Hawk. The young chief openly accused his powerful uncle of cowardice when he said that the white men were as countless as the sands of the rivers. Black Hawk leaves no heir. His only son was killed three years ago in a fierce encounter with Jay Swallow, a stalwart brave of the Winnebagoes.

SMALL AUDIENCE PRESENT

"The Pay Train" at Myers Grand Last Night—Tonight's Attraction.

"The Pay Train," a four act melodrama, was presented to the patrons of Myers Grand Opera House last evening, but owing to the heat and strong counter attractions attendant upon Labor day, the audience that witnessed the production was small.

The play was replete with such thrilling situations as a railroad wreck, boiler explosion and a sensational denouement of one of the meanest villains ever seen on the local stage. It was agreed by every person in the audience that he deserved even a worse punishment than he received.

"The Wheel of Fortune" will set up by the same company tonight, and you can take a whirl at it for 15, 25 or 35 cents.

"The Wheel of Fortune" Tonight.

Most so-called scenic players are merely a display of scenery with a few lines distributed here and there to fill in time while the stage hands are changing the sets. "The Wheel of Fortune" is a scenic play, but not of the above class, written by an author of note, who has provided it with plot and action of real merit. Its realistic scenic effects only serve to intensify interest, that would have otherwise been aroused. Presented by carefully selected cast of metropolitan players. This attraction has proven to be of such great merit that its tour has been a big success without a single exception. Manager Myers has secured "The Wheel of Fortune" to appear at the Myers Grand this evening.

WHEAT AILS OSHKOSH?

What is the matter with Oshkosh? A dispatch from that city to a Chicago paper is as follows:

Oshkosh, Wis., Sept. 5.—The Paine Lumber company's warehouse fire, which resulted in a total loss of that structure and contents, compelling insurance companies to pay \$40,000, has led to an investigation into the condition of the fire department and also of the water company service. There have been so many "total loss" fires in Oshkosh recently that the adjusters have demanded an inquiry. The local board of insurance underwriters will make the investigation, which will be begun early this week. Insurance men say that if there were not another dollar of loss this year, the premiums in Oshkosh would fall \$25,000 short of paying the losses so far insured.

Oshkosh should send a commission to Janesville to get pointers. Janesville's fire department, we will venture to predict, does not cost anywhere near as much as Oshkosh's, yet Janesville has not had a "total loss" fire since the big wind blew. The insurance premiums collected in Janesville have exceeded the fire loss many times, for many years past.

Janesville has a highly efficient fire department and a perfect system of water-works. Oshkosh officers should come here and look over the ground. If the Janesville standard is adopted, "total loss" fires will cease, and both property owners and insurance companies will be the gainers.

Send down your delegation, Oshkosh, and we'll entertain it royally, and show it how to "run the machine."

Dane county friends of R. M. LaFollette are angry because Gov. Scofield has been invited to speak at the Dane county fair, and ask that Ex-Gov. Hoard be also invited to speak. The request should be granted. And for fear of hurting other people's feelings we would suggest that an invitation also be extended to a gold democrat, a silver democrat, a plain democrat, an anti-expansionist, an anti-imperialist, a prohibitionist, a socialist, a labor unionist, a woman's rights advocate, a populist, and the Salvation army.

The "personal columns" of the metropolitan papers sometimes contain laughable productions. This item recently appeared in a Chicago paper:

LADY EDUCATED AND REFINED WANTS gentleman with plenty capital for big-house business; no fakirs or bums. Address M 47, Chicago Chronicle.

This lady makes her education and refinement stick out boldly. No wonder she doesn't want to hear from "fakirs or bums."

William J. Bryan who has made a fortune of \$200,000 during the prosperous era following his defeat for president, will stump the state of Ohio with John R. McLean, the millionaire democratic candidate for governor of that state. When these two nabobs speak the willing men are expected to bow down in submission—but will they?

Bryan should get into the "solid south" as soon as possible. Otherwise he is likely to find that Senator Morgan's work has borne fruit, and that the southern states are solidly arrayed against an inflated currency and a contracted country.

Frank P. Blair, attorney for Captain Carter, now says he "didn't say it," and that the newspapers made it up of whole cloth. Why not spell Blair's name "blare"? He makes noise enough to deserve it.

Walter N. Allen, the organizer of the Kansas Farmers Trust, denies that the organization is a trust. "Twice over thus. Havemeyer says the same thing about the sugar monopoly."

The managers of the Dubuque trotting meeting made \$20,000, and many times that amount was spent in the city by visitors, to the profit of the merchants and citizens generally.

Admiral Sampson does not wish to retire, but will remain in command of the North Atlantic squadron. Sampson is a sailor, not a "land admiral."

Senator Morgan of Alabama, says that expansion will prove the salvation of southern cotton growers, and he will stump the south to spread his belief.

Ex-Governor Hogg has declared war on Congressman Bailey. "Go it, hussar, go it, bear!"

Catch the burglar.

GEORGE W. BLABON VISITS JANESVILLE

LOOKING AFTER BUSINESS INTERESTS IN THE WEST.

Philadelphia. Man is the Owner of the Janesville Street Railway—Gratified to Find Things in Good Shape—Great Improvement in System—Might Extend Line.

George W. Blabon of Philadelphia, arrived in the city yesterday and registered at the Myers House. Mr. Blabon is in the west looking after his many interests, one of which is the Janesville street railway, and came to this city from St. Louis, where he has been for several days past.

When seen by a Gazette reporter at the hotel this morning the street railway magnate said that he was not in the city for any special purpose, but that he was on his regular tour of inspection, and naturally stopped off at the Bower City to see how things were getting along. His first act upon arriving was to board the different cars in turn and make trips over the entire line, during which he stopped off at the power house in Spring Brook for a short time.

Good Equipped Street Railway. "I am much gratified to find that things are in such good shape here," said Mr. Blabon, in the course of the conversation this morning. "You Janesville people can be safe in saying that you have the best equipped street railway of any city of its size in the west. My acquaintance of the line was somewhat compulsory at first, as I took possession of it on a debt. At that time it was in bad shape and the way the local management conducted it was a farce. The cars were old and there was no attempt made to run them on schedule time. The motormen would run to the end of the line and lie down until the time was up, then they would turn the full current on and run to the opposite end so fast that all one saw was a yellow streak."

"But things are different now. I find the motormen to be an intelligent, careful lot of men who thoroughly understand their business, and are always on the lookout. The most of the cars now in use are the best that can be obtained and are a credit to the line. Whenever the occasion demands it, new ones will be put on."

May Extend to Cemetery. "Do you contemplate any extensions at present?" he was asked.

"No," he replied, "but if the people should build a nice chapel at the cemetery, as there is some talk of, we might extend the line to it. If the citizens should interest themselves sufficiently in the matter, an extension might be run up the river to one of the parks. I would not bear the entire expense myself, however, as I have sunk too much money here already."

"You are satisfied at the action of the council in releasing you from the necessity of putting down the trolley rail on Milwaukee street, are you not?" queried the reporter.

"Well, of course it will save considerable expense, but I would have been willing and glad to have made the change if the citizens wanted it, but it would be absolutely impossible to get the rails, as there are but two mills in the country making them, they being a patented type, and they are way behind on their orders. The rail now down is the one in general use and it gives universal satisfaction."

"What do you think of brick pavement?"

"Well, I am afraid you will find a mistake was made. It is all right for light driving, but for heavy traffic I fear it will not meet the requirements. I consider a good asphalt the best paving material."

Mr. Blabon says he will remain in Janesville several days, at least until the weather makes traveling more agreeable.

MONSTER CROWD SAW YESTERDAY'S SECOND GAME.

Those Who Failed to Get All the Base Ball They Wanted Yesterday Are Hard to Please.—Adkins Pitched a Great Game and Kept the Visitors Guessing.

Those who did not get all the base ball they wanted yesterday are indeed hard to please.

Of course they did not all get their money's worth, especially the ones who attended the forenoon game, but they saw enough of base ball to satisfy them for the balance of the season.

In the first place the management was unwise to arrange two games—one at 2:30 p. m. would have drawn more people than attended both games, the full strength of both teams would have been presented, a close and exciting game would probably have resulted and the audience sent home in good humor.

As it was, the Oshkosh club came here from their defeat at Juneau short handed, and put in what they considered a weak battery for the morning game, expecting to lose. But the battery fooled them, as well as the Y. M. C. A. players, who gave a weird exhibition, and Oshkosh was forced to win by the one sided score of 10 to 2. Carle was so good in the morning that he was again put in to catch in the afternoon, with the "great" Dixon, to show the curses, and show the Y. M. C. A. boys a thing or two about the game. He did, but not in a manner the spectators would care to see again. His poor pitching spoiled what might otherwise have been a good game and had a very depressing effect upon his colleagues.

Ordinarily a game in which our boys defeated their opponents by a score of 8 to 0 would have aroused considerable enthusiasm, but the victory seemed to fall flat yesterday, and as far as the interest in the game is concerned the management was unfortunate in the one sided results of the contests.

The game opened in brilliant style, Metzler running catch on which he made a double play, Sullivan's stop of Morrissey's base hit on which he retired the batter, and Fisher's catch of a foul fly all in the first inning, inspiring the spectators to hopes of a grand game, which soon lapsed into a case of bases on balls for the Y. M. C. A. and strike-outs by the Oshkosh players, the only other feature worthy of mention being the striking out of two men in succession by Adkins, with three men on the bases and one man out; a couple of stops by Bruyette, and Blakeley's work in left field. But here is the score; help yourself.

Notes of the Game.
Adkins pitched a great game, and had the Oshkosh players guessing at all stages.
Dixon reminded one of the month of March. He came in like a lion and went out like a lamb—at the completion of the eighth inning. He also went out on strikes every time he came to bat, excepting once, when he reached first on balls.
The largest audience of the season attended the afternoon game.
The umpires ought to see that the foul flags are in correct position. No one else seems to have time. In the morning a spectator remarked that the one in left field was ten feet out of the way, which was discovered to be the case after Morrissey's foul hit had been declared fair, and McCarthy had to suffer.
McMasters was called safe at first in the fourth inning, when every one thought he was clearly out. The decision gave the home nine two runs.
Carle had a great day, catching two of the wildest pitchers seen here this season with only two passed balls.
Pretty good for an amateur.
In the morning game, nine of the Y. M. C. A. went to base on balls, two on being hit by ball and five on base hits.
Sixteen in all to first base and only two reached home—very clever base running.
Allen has fallen off wonderfully in his fielding and is also weak at the bat.
McMasters' understudy on the coaching line was rehearsing in the grandstand during the morning game.
Very few of those who were betting on Oshkosh previous to afternoon game, stayed to the finish.
And they are still a tie, each club having won four games.
After reading about the heavy batting of the Y. M. C. A. at Monroe, the fans were expecting to see a great improvement yesterday, but were woefully disappointed.

Brown did not seem to be himself in either game.
How would you like to be the umpire?

PLEASURE AT GOLF LINKS YESTERDAY

PLAY THEIR GAMES, FEAST AND DANCE IN EVENING.

Orion Sutherland Captures the Driver in the Handicap Match—Charles P. McLean a Close Second—Schaller, McKinney, Fifield and Echlin Winners Also.

Yesterday was a great day at Buckle-ton links and the golfers of Janesville and their friends, enjoyed one of the most pleasant days of the season. There were the regular scheduled games, feasting, dancing and a good time generally, which the unusually large crowd present enjoyed immensely.

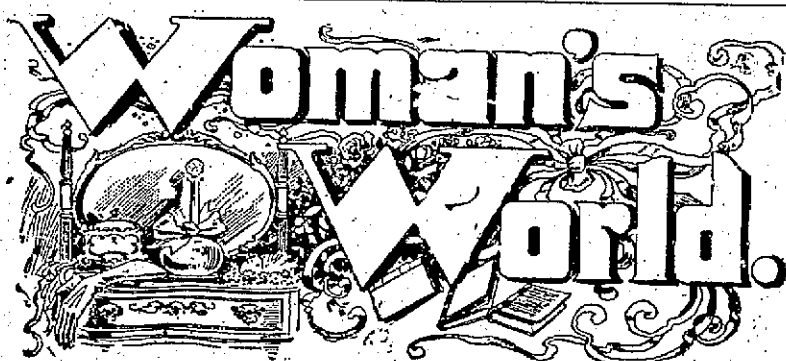

Orion Sutherland captured the driver which was contested for. His net score was 88. C. P. McLean scored in second place, and received nine golf balls. Al Schaller scored in third, and won six balls. H. H. McKinney, F. E. Fifield and F. B. Echlin divided the fourth and fifth prizes and received three balls apiece.

Supper was served in charge of Miss Agnes Shumway. One hundred were seated at the festive board, which number exceeded expectations. After the exercise and jollity of the afternoon, the feast was enjoyed and relished.

Dancing was the order of the evening, the inspiration for which was furnished by Roy Carter on the piano. A feature of the evening was the impromptu musical. Mrs. Warner D. Welsh, who is visiting her sister, Mrs. H. M. Fulker sang several solos and rendered sentimental songs and "rag" time. She has a very sweet voice and her renditions completely captivated her hearers. John V. Norcross was also called on, and the audience enjoyed listening to several songs that were well rendered.

Little Folks' Clothes.

The skirt of this attractive little costume for a small girl is of blue linen, the waistcoat is of white pique, and the

DOLLYS FOR A SMALL GIRL AND BOY.

Jacket is trimmed with a full of white embroidery, finished at the back with a deep sailor collar. The excellence of the whole is apparent.

The boy's suit, white, becoming and stylish, is very simple and adapted to either light weight summer clothes or to any of the pretty washing materials in vogue.

A Pretty Table Decoration.

Get a long piece of glass for the center of the table and put brown paper around. Make it as rugged looking as possible. Then arrange damp (not wet) moss on it and stick small frouds of fern in the moss and any wild flowers or simple garden flowers available. Water lilies look delightfully cool put on the glass.

Fads and Fancies.

In continuation of the furore for white it is predicted that white cloth will be largely employed for visiting and traveling costumes and will be made up into cloaks, coats and wraps of all kinds; but smarter still is white taffeta for coats and jackets and long driving cloaks.

A novel collar band emanating from Paris is a stitched plain band of ribbon passing through a large, dull gold buckle at the throat and finished off

in a pointed short tail. It looks well for traveling and morning suits.

A note of black is struck in all the most elegant light gowns, either tulle choux of black, black fringes or black belts.

A shoulder scarf of chiffon falls in a twist and long ends from an elegant linen and pique costume. These old fashioned floating scarfs are somewhat odd on the energetic ladies of today, but they are pretty and quaint and require as much practice in the art of wearing them as does the fashionable skirt if it is to be lifted in the way it should go.

Summer Curtains and Awnings.

Thin white curtains in a window always suggest daintiness and refinement, but where the sun shines strong they make too glaring an effect inside. For this reason, says Harper's Bazar, the softer, sheerer muslins, those with less reflective surface, are to be preferred. Yellows and pinks in soft shades and sheer materials are in use. When the eye of the neighbor has to be considered, a pretty fashion is to have a thin curtain next the window, this curtain to be drawn back or looped or so arranged as to look well from the street, a sheer transparent color being hung straight, inside, next the room. No one from outside can see through, and those inside can see out without being deprived of any light. Heavy curtains are used inside of these when required and are generally of silk or chintz in a bedroom, of silk, tapestry or rich stuff in a drawing room or library. In summer, when awnings are used, these thick curtains are taken down. Green or white awnings, by the way, should be used instead of the blue or the red and white.

A Smart and Practical Little Costume.

The skirt of the boating costume here shown is of royal blue serge, trimmed with graduated bands of white braid and a circle of embroidered anchors applique. The jacket is in white flannel, summer cloth or pique, set off with blue braid, and coat revers of

dark linen or satin, outlined with white braid. With it is worn a frilled chemise, with turned down collar in white cambric.

The panama hat is trimmed with blue ribbon, black amazon feather and a ring gilt buckle. By a little change in the building pattern this costume, originally intended for boating and yachting, becomes suitable to all sorts of serviceable country and seaside wear, being at once sensible, becoming and smart.

About a Summer Word.

The most expensive word that can properly be applied to a woman is the word "dainty." A woman may be stylish, well dressed, good looking, half a hundred other things without any considerable amount of expense, but to live up to the requirements of the word "dainty" means that the person so designated has leisure absolutely uncroached upon. It means money plentifully supplied, a taste unspoiled by a desire for extravagance of color or form. "Dainty" means all these and many other things, says the New York Herald. It means absolute freshness of material, of ribbons, laces, muslins, garments of all kinds. It means organdies uncrumpled, ruffles fresh from laundering, laces unspotted from the world and from everything else, water, soap, starch in abundance.

MUST TREAT WITH GEN. OTIS

New Scheme of Dealing with Rebels Is Adopted.

AGGRESSIVE MOVES PLANNED.

With the Re-enforcements on the Way to the Islands, the Commanders Are Expected to Deal Crushing Blows Against Aguinaldo.

Washington, Sept. 5.—The special cabinet meeting was important. While it did not result in any radical changes of policy, the Philippine situation was discussed at some length. Secretary of War Root explained his plans for the aggressive campaign that is to be conducted, and recommended some changes in the management of affairs in the far-away islands, which were received with evidences of approval. He urges that the responsibilities in the Philippines be divided, and that the government of the islands be entrusted to one official, while the command of the troops in the field be under the supreme control of another.

This plan is making friends in administration circles. Its adoption seems certain, and if approved by the president will result in the assignment of Gen. Otis to be military governor and another officer, probably Gen. Lawton, to the command of the troops.

The cabinet decided to suspend negotiations with the insurgents through the Philippine commission, and the commission will be quickly dissolved. The president and his cabinet advisers have reached the conclusion that it is impolitic and unwise to maintain the commission and attempt to negotiate with the insurgents for surrender. An aggressive campaign has been ordered, re-enforcements have been provided for Gen. Otis, and the army prepared to deal crushing blows. The military men of the service will be given full sway.

Col. Denby and Prof. Worcester, the two civilian members of the commission now in the Philippines, will be promptly ordered home, and the insurgents notified that any communications they may have to make in the direction of surrender must be addressed to Gen. Otis.

ENGLISH SEAMEN ON STRIKE.

Much Excitement at Cardiff and Newport—Failure Predicted.

London, Sept. 5.—Two thousand seamen met at Shields' Monday, and unanimously resolved to enforce their demands for an increase in wages to £6 per month and 35 shillings per week on the weekly boats.

The seamen's strike has commenced at Cardiff and Newport, and there is much excitement around the docks in those places. The ship-owners are firm in refusing the demands of the strikers. There is as yet no indication of a strike on the London docks. No decisive action has been taken by the seamen at Liverpool, Hartlepool, West Hartlepool, Sunderland, Glasgow, Southampton or Grimsby. The consensus of opinion is that the attempted strike will be a dire failure.

Cat Protection in New York.

Every cat found without a collar on the streets of New York is immediately taken in charge by the officials of the Society for the Prevention of Cruelty to Animals. The laws are very strict and the proper care of a cat is compulsory. Leaving it out to starve, or abandoning it to its own resources, is punishable by a fine of \$500, or one year in prison, or both. The society maintains a shelter for lost, strayed or stolen cats, and last year 178 from there were placed in homes.

Small Skirmish Near Ponce.

Manila, Sept. 5.—A small reconnoitering party from Col. Bell's regiment ran into a rebel outpost near Ponce yesterday. In the resulting skirmish one American was killed and one wounded. The rebels were driven back to their main body and the Americans captured a bullock cart, on which the dead and wounded men were brought back to the American lines.

Seek Recognition from Japan.

Manila, Sept. 5.—Rafael del Pan, a Spaniard born in the Philippine islands and recently identified with the Filipino Junta at Madrid, has gone from Hongkong to Japan. It is reported in Filipino circles here that Del Pan's purpose is to request the Japanese government to recognize the Filipino insurgents.

No Occasion for Alarm.

Washington, Sept. 5.—Navy department officials say that there is no reason for any fear whatever as to the safety of the United States training ship Monongahela. She is perfectly seaworthy, and though a storm might interfere with her sailing, there is no doubt that she will turn up all right.

Are Not Unfriendly to Dewey.

Madrid, Sept. 5.—The arrival of Admiral Dewey at Gibraltar does not pass unnoticed in Spain, yet the editorials in the Madrid papers touching the event are not at all unfriendly to the man who wiped out the Spanish sea power in the far east.

Site for a Statue of Parnell.

Dublin, Sept. 5.—The corporation of the city of Dublin has granted a site for a statue of Charles Stewart Parnell, the foundation stone of which will be laid in October.

No New Cases of Fever.

New Orleans, Sept. 5.—Dr. Souchon reports that no new cases of fever have developed and that a house to house inspection shows no suspicious cases.

FACTS ARE STUBBORN

Janesville People Are Not Convinced By Local Testimony They Differ From Other People.

Our readers must have noticed in the past two years how "cures" have multiplied in the newspapers like mushrooms in a meadow, and following the plethora of "cures" the general public have turned remarkably skeptical. Facts are demanded, but it has also become essential to know who supplies them, where are they from, in fine, whom have you cured. Doubting Thomas would not accept a par incredible cures on the other side of the continent. He wants it at home. "Give us some neighbor, then I will believe," is what he asks for. Well Doan's Kidney Pills do this. Call it what you like, at home, local or neighbors' testimony, you can always ascertain the truth of it without leaving Janesville.

Here is a case: Mr. John Stetson, of Hotel Myers, day clerk, says: "I was thoroughly examined by a physician some time ago who pronounced my trouble kidney complaint. If the severe pain across the small of the back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks which when not virulent, there existed a dull, grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date, and it is some months since, I have not noticed any recurrence of my old trouble."

Doan's Kidney Pills are sold by all dealers. Price, 50 cts. Sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's and take no other.

Where There Are No Taxes.

Loud's Island, on the coast of Maine, near historic Pemaquid, in the Lincoln county town of Bristol, is one of the very few places on earth where there are no taxes. This island, otherwise known as Muscouagus, was overlooked when Maine became a state, and was put into no town or county. It was said that during the war the people cast their votes for a time in the town of Bristol until some election officer discovered the illegality of the vote. The island was first settled by John Loud, a deserter from a British man-of-war, and his great-grandchildren are now prominent inhabitants. By voluntary contribution school is maintained, the parents paying \$4 for each child. The school term averages eight months in each year, and there is an average attendance of eighteen scholars. Catching bait for the fishermen of Boston, Gloucester and Portland is the most profitable business of the people, but when bait is slack in running they turn their attention to lobstering, mackerel fishing and catching porgies for the big oil and fertilizing factory opposite the island in Bristol. After a successful haul of bait a large white flag is hoisted on the high ground in the center of the island. With a glass may be discovered far out at sea whence come the Grand Bankers and others like buzzards attracted by the casualties of battle. The people have comfortable homes and are prosperous and contented. Like the fishermen of Deer Isle, they are famous for their skill as sailors.

Still Samon's Chief Justice.

Washington, Sept. 5.—Chief Justice Chambers of Samoa is here to confer with officials and to submit his reports to the three powers represented in Samoa. Judge Chambers says that he has not resigned, but still holds his position of chief justice of Samoa.
